

# Installers Love SpeedRod™!

“  
I've been installing for six years. SpeedRod™ helps me install perfectly every time. Coverage is always even and the R-value remains uncompromised. It's also great for installing in tight corners. If only I had SpeedRod™ a few years ago. What a difference it makes!

– Kevin Woolboy ”

“  
I've been installing insulation for nine years. There's so many ways I can use SpeedRod™ to help me do my job. It's THAT flexible. With SpeedRod™ there's no wrong way to install and everything stays put.

What once took me a day and a half now takes me six hours. I can get two more houses installed per week. This should be the standard for all insulation installers.

– Edgar Flowers ”

## Ordering SpeedRod™ Hangers is as Easy as Using it

SpeedRod™ hangers are available in boxes of 200

Each box covers approximately 525 sq. ft. of R-19 to R-49 insulation
